

# Sundara® Drift Handwashing System

Optimize the Restroom Flow and Design

Influenced by architects and crafted by audacious industrial designers, we've unified seamless countertops, basins, faucets, and soap dispensers for a modern concept that elevates the restroom experience. Behold the balance of brawn, brains and beauty.

## BRAWN

### The Strength of Simplicity

Sundara's performance stems from Zurn One: a system that streamlines the restroom ecosystem through a single-source manufacturer. Because Zurn develops all of Sundara's fixture components, we are able to reduce installation time, increase effectiveness, and maintain reliability.

## BRAINS

### More Input for a Better Output

Sundara is the culmination of more than 10,000 research hours, 150 architect interviews, and 26 trial prototypes. We asked questions, learned lessons, and put that knowledge to work. The result? The most user-friendly, design-forward hand washing product on the market today.

## BEAUTY

### Reimagining the Restroom

Sundara enables designers to breathe new life into a space that is often overlooked. Its modern lines, minimalistic drains, fashionable faucets, sophisticated soap dispensers, and refined ergonomic features deliver charming-yet useful-touches.

Sundara Drift presents an organic design in a contemporary form with a sweeping basin and a soft transition to the integral backsplash. Paired with Zurn's new wall-mount sensor faucet and soap dispenser, Drift provides an exceptional design for high-end commercial environments.

# Decisions of Distinction

The Sundara handwashing system reinvents the commercial restroom space with a selection of innovative designs combinable with a curated selection of sensor faucets and soap dispensers. There are plenty of options available – seven colors, two finish options – that allow you to create your own look. Custom colors available upon request.

## Collaboration Comes in Many Forms

Pair with our Nachi Series sensor faucet and soap dispensers to create the perfect pairing. You also have options in flow rate, configuration and finishes.

Z6957-XL / Z6958-SD or Z6957-FSD

### Nachi Series® Sensor Faucet & Soap Dispenser

No frills. No fuss. Sleek and simple never looked so good or worked so well. Nachi's wall-mount design commands the space without monopolizing it. It's easy on the eyes and even easier to maintain. Plus, with multiple finishes and low flow performance, you'll leave your personal touch, not a large footprint.

Paired with the Nachi faucet, this soap dispenser is available in liquid or foaming. It creates a clean, contemporary look that matches the Sundara Drift basin. Select from two finishes.
