

This warranty is provided by Zurn Water, LLC, Zurn Industries Limited and their subsidiaries (collectively, "Zurn"). Zurn warrants to the original purchaser that all GRZE™, Proceptor®, and FOG-ceptor® oil and grease separators (collectively, "Interceptors") purchased from Zurn will be free from defects in materials and workmanship for a period of one (1) year following the date of initial delivery to the purchaser, subject to the terms and conditions below. Zurn further warrants the Interceptors, for the lifetime of the plumbing system into which such devices were originally installed, subject to the following conditions:

1. The Interceptors are installed in the United States or Canada following the Interceptors' installation instructions. The Interceptors must be installed by a trained contractor with all his/her required registrations, certificates, and/or licenses. Any installation, repair, or alteration must be completed in accordance with recognized industry practices and applicable regulatory requirements.
2. The Interceptors are operated and maintained in accordance with the Interceptors Owner's Manuals and in accordance with regulatory requirements designed to minimize the possibility of structural failures and releases of regulated substances.
3. There are no post-installation modifications or repairs of the original Interceptors.
4. The Interceptors shall not be purchased, installed, or used in any application other than commercial, industrial, or institutional use.
5. After initial installation of the Interceptors, the Warranty Registration on Zurn.com must be completed within 30 days after installation; failure to properly complete and submit the registration will result in denial of any future claim.
6. Oil Multi-Cell (OMC), Gravity Grease Multi-Cell (GMC) Proceptor and FOG-Ceceptor models up to 4000 gallons must be installed at a maximum depth of 6 feet from the top of the tank to grade. Such models that are 4000 gallons or more must be installed at a maximum depth of 4 feet from the top of the tank to grade. (For deeper installation, a custom reinforced Proceptor or FOG-Ceceptor must be designed and authorized by Zurn.)
7. If the Interceptors are remanufactured, moved, or removed from the ground for any reason prior to the expiration of this warranty, the warranty protections will terminate.
8. Customer assumes the risk of and agrees to indemnify Zurn against and hold Zurn harmless from all liability relating to: (i) assessing the suitability for Customer's intended use of the Interceptors and of any system design or drawing; (ii) determining the compliance of Customer's use of the Interceptors with applicable laws, regulations, codes and standards; and (iii) any liability, claims, loss, cost, or expenses (including reasonable legal fees) attributable to Customer's Interceptors system or representations or warranties concerning same. For Interceptors resold by Customer, Customer retains and accepts full responsibility for all warranty and other claims relating to, or arising from, Customer's Interceptors system which includes or incorporates Interceptors or components thereof manufactured or supplied by Zurn, and Customer is solely responsible for any and all representations and warranties

regarding the Interceptors system made or authorized by the Customer.
